

## MetalTech-USA Welcomes Kurt Rubright, Applications Manager

**FOR IMMEDIATE RELEASE** Peachtree, City, GA October 18, 2011

MetalTech-USA, a leading distributor and industry leader in metal fabrication, is pleased to announce that Kurt Rubright has joined the organization as Applications Manager.

Rubright will be assuming the role of Applications Manager, and he will be responsible for the provision of instructional resources and hands-on training. In this role, he will work closely with clients to provide enhanced installation support. Rubright's training background includes a degree in Drafting Technology with Mechanical Specialization, and advanced training in Auto CAD and Solid Works. With over 25 years of metal design and installation experience, both his extensive product knowledge and training are sure to be assets to MetalTech-USA.

"I'm really excited about taking on this new role. I look forward to putting my experience to work for MetalTech-USA's client base," said Rubright. "I believe that providing this level of support would not only help improve the installation experience, but the overall project outcome for our clients," he added.

Nils Simonsen, CEO and President of MetalTech-USA commented, “We’re very excited to have Rubright on board. His background in metal applications will be helpful in assisting installers, builders, and contractors, making him a great fit for the role.”

The need for improved access to training resources for MetalTech-USA panel systems became evident as the demand for eco-friendly building materials continued to grow. “Because the use of high-end metals in American architecture is still relatively a new concept to the building community, we felt compelled to equip our clients with the necessary resources to ensure success in their installation efforts.”

### ***About MetalTech-USA***

MetalTech-USA is a premier distributor and specialty fabricator of eco-friendly architectural metals that specializes in roofing, rainwater, soffit and cladding systems. For more information, visit [www.metaltech-usa.com](http://www.metaltech-usa.com), or call 770-486-8825.
