## MetalTech-USA Makes Zinc Panels for Marta Transit Shelters in Atlanta

**PEACHTREE CITY, GA., July 9, 2010** – MetalTech-USA, a premier distributor and fabricator of coils, sheet and architectural metal products, supplied the zinc panels for shelter buildings at five Atlanta area Park n' Ride lots.

The shelters, known as "Fare Systems Shelter Buildings", were constructed of 0.7mm RHEINZINK blue gray zinc. The Pierre Construction Group, based in Stone Mountain, Georgia, installed the double lock standing seam shelter covers, and the zinc panels were curved on-site.

"The choice of RHEINZINK for this project will save the Marta system money," said Blaine Gardner, V.P of Operations at MetalTech-USA. "Zinc is self-weathering and self-healing, with no maintenance needed over the lifetime of the shelter covers. They'll never need to be painted."

The five Park n' Ride lots with the new shelters are located at:

- Shelter 7: Interstate 20 East & Gresham Road, Exit 63, in Dekalb County
- Shelter 29: I-75 at Jodeco Road Near Flippen Road, in Henry Country
- Shelter 94: Cumming Fairgrounds, 300 Castleberry, in Forsythe County
- Shelter 88: 800 S. Marietta Pkwy near Marietta, in Cobb County
- Shelter 11: I-20 West & Post Road, near Douglasville, in Douglas County

### About MetalTech-USA

MetalTech-USA is a premier distributor and fabricator of environmentally-friendly architectural metals. In partnership with RHEINZINK® America, Allegheny Ludlum, Hussey Copper and others, MetalTech-USA is working to promote the sustainable use of metals in architecture.
