

Natural Metals in Interior Applications

Make MetalTech-USA the source for your interior application metals. We carry elZinc[®], copper, stainless steel, weathering steel, and more for interior applications. Natural metals are versatile materials. Almost any pattern desired can be created with our modern metal finishes.

Natural metals are environmentally friendly.

The use of natural metals substantially helps preserve our environment. Natural metals have a long life span, and are 100% recyclable. This cuts the energy demand over the whole material life cycle.

Interior Applications:

- Table tops
- Accent Walls
- Ceilings
- Backsplashes
- Door coverings
- Oven hoods
- Shower enclosures
- Design accents
- Sinks and bars
- Fireplace surrounds
